First Printing, 1981

ACKNOWLEDGEMENT OF ASSISTANCE

All manuscripts utilizing data made available through the Consortium should acknowledge that fact as well as identify the original collector of the data. The ICPSR Council urges all users of the ICPSR data facilities to follow some adaptation of this statement with the parentheses indicating items to be filled in appropriately or deleted by the individual user.

The data (and tabulations) utilized in this (publication) were made available (in part) by the Inter-university Consortium for Political and Social Research. The data for the CENSUS OF STATE ADULT CORRECTIONAL FACILITIES, 1979 were originally collected by the bureau of the Census. Neither the collector of the original data nor the Consortium bear any responsibility for the analyses or interpretations presented here.

In order to provide funding agencies with essential information about the use of archival resources and to facilitate the exchange of information about ICPSR participants' research activities, each user of the ICPSR data facilities is expected to send two copies of each completed manuscript or thesis abstract to the Consortium.

Please indicate in the cover letter which data were used.
STUDY DESCRIPTION

The Census of State Adult Correctional Facilities, 1979 was one of a series of data-gathering efforts undertaken during the 1970's to assist policymakers in assessing and overcoming any deficiencies in the nation's correctional institutions. During that decade, an unprecedented growth in the number of people subject to custody imposed increasingly heavier demands on already strained institutions. Intensified by overcrowding, the deterioration in living conditions among the incarcerated helped spur public authorities, especially the judiciary, to take remedial action. Decisions rendered by state and federal courts have required the adoption of measures to alleviate overcrowding and otherwise improve living conditions in correctional facilities. Against this background, the Bureau of Justice Statistics has conducted surveys of federal, state, and local correctional facilities to determine existing conditions and to predict future needs.

The Census of State Adult Correctional Facilities, 1979 was conducted in conjunction with the Survey of Inmates of State Adult Correctional Facilities, 1979. The Census of Correctional Facilities, 1979 was designed to gather a wide range of information on all federal Correctional Facilities operating in 1979. The type of information collected includes:

- INMATE DEMOGRAPHICS - sentenced and unsentenced, by security classification, by sex of inmate, by race, and by veteran status
- STAFF DEMOGRAPHICS - by full and part-time staff, by paid and unpaid staff, by type of position, and by race
- CONFINEMENT UNIT INFORMATION - rated capacity, floor space, number of units, security designation, and number of inmates in each type of unit
- PROGRAMS FOR INMATES - by group offering programs, and by type of program
- MEDICAL EXAMINATION - by tests given

The survey was conducted by mail, with follow-up telephone queries for facilities failing to complete the questionnaires. The response rate was 100%. There are 493 variables for each of the 931 facilities interviewed for the survey.
FILE STRUCTURE

The Census of State Adult Correctional Facilities, 1979 data are available from the ICPSR in two formats: a card image file and an OSIRIS dataset. The card image file contains one set of cards per case (known as a deck). The deck format is based on 80 column punched cards. The data are sorted by case with all decks for a case together in ascending order.

The OSIRIS dictionary gives the format and other information for each variable in the OSIRIS data file. The dictionary or dictionary-codebook file is used in conjunction with the OSIRIS software package. The OSIRIS data file is constructed with a single logical record, for each case. There are 493 variables on 791 cases.

The OSIRIS data file can be accessed directly through software packages or programs which do not use the OSIRIS dictionary by specifying the tape locations of the desired variables. These tape locations are given in the OSIRIS dictionary-codebook.

ICPSR PROCESSING INFORMATION

The study was processed according to the standard ICPSR processing procedures. The data were checked for illegal or inconsistent code values which, when found, were recoded to OSIRIS missing data values. No consistency checks were performed. Statements bracketed in "<" and ">" signs in the body of the codebook were added by the processors for explanatory purposes. The archival processing of this study was done by David Schreiber.

CODEBOOK INFORMATION

The example below is a reproduction of information appearing in the machine-readable codebook for a typical variable. The numbers in brackets do not appear but are references to the descriptions which follow this example.

[7] Form number

[8] ------------------------------------------

[9] ------------------------------------------

[10] [11]

42. Short form
43. Long Form

[1] Indicates the variable and reference numbers. A variable and reference number are assigned to each item in the study. In this codebook which documents the archived dataset these numbers are identical. Should the data be disseminated in a different structure, new variable numbers may be assigned or created. The reference number would remain unchanged and correspond to those in this codebook.
[2] Indicates the abbreviated (24 character maximum) variable label used within ICPSR to identify each variable. An expanded version can be found in the Variable Description List.

[3] Indicates the designation of missing data. In this example, there are no missing data codes. Alternative statements for other variables are "MD=0 OR GE 9", "MD GE 9", or MD=9. Some analysis software packages (including the ICPSR-supported package) require that certain types of data which the user desires to be excluded from analysis be designated as "missing data" e.g., inappropriate, unascertainable, or ambiguous data categories. Although this value is defined as within the missing data category, this does not mean that users should not or cannot use this code value in a substantive role if they so desire.

[4] Indicates the sequential location and width of this variable within the record when the data are stored on magnetic tape. In this example the variable named "form number" is 2 columns wide and located in the 10th column within the record.

[5] Indicates the location by deck and column(s) of this variable when the data are stored on cards or in card image format.

[6] Indicates the full text of the variable description supplied by the original collector of the data. The numbers and letters that may appear at the beginning are question numbers from the survey forms.

[7] Indicates an additional comment or explanation appended to the variable description.

[8] A variable which has a footnote associated with it is denoted by the message, "SEE NOTE(S) X" where X is the number of the footnote referenced.

[9] Indicates the code values occurring in the data for this variable.

[10] Indicates the textual definitions of the codes.

**VARIABLE DESCRIPTION LIST**

**CENSUS OF STATE ADULT CORRECTIONAL FACILITIES, 1979**

**ICPSR PROCESSING VARIABLES**

1. ICPSR Study Number
2. ICPSR Version Number
3. ICPSR Part Number
4. Sequence Number

**STUDY AND GOVERNMENT ID VARIABLES**

5. Form Number
6. State Number
7. County
8. Government ID
9. Agency ID
10. Type of Institution
11. Number of Employees
12. Sex of Inmates
13. Type of Facility
14. Facility Used For: Youth Confinement
15. Facility Used For: Classification
16. Facility Used For: Medical Treatment
17. Facility Used For: Adult Confinement
18. Facility Used For: Other
19. What is the Rated Capacity of this Facility?
20. Does Facility Have a Study Release Program?
21. Does Facility Have a Work Release Program?

**NUMBER OF INMATES**

22. Total Number of Males
23. Total Number of Females
24. Number of Sentenced Males
25. Number of Sentenced Females
26. Number of Unsentenced Males
27. Number of Unsentenced Females
28. Total Number of Males: Not Allowed to Leave
29. Total Number of Males: Not Allowed to Leave
30. Number of Sentenced Males: Not Allowed to Leave
31. Number of Sentenced Females: Not Allowed to Leave
32. Number of Unsentenced Males: Not Allowed to Leave
33. Number of Unsentenced Females: Not Allowed to Leave
34. Total Number of Males: Allowed to Leave
35. Total Number of Females: Allowed to Leave
36. Number of Sentenced Males: Allowed to Leave
37. Number of Sentenced Females: Allowed to Leave
38. Number of Unsentenced Males: Allowed to Leave
39. Number of Unsentenced Females: Allowed to Leave

SEQUENCE NUMBER

The ICPSR has attached a number to every case. This number uniquely identifies each case in this survey.
Each state and the District of Columbia have been assigned a unique number from 01 (Alabama) to 51 (Wyoming) in alphabetical order.

99. NA

This code identifies the county in which the facility is located. Counties within a state are ordered alphabetically and assigned a unique number starting with "001". Anderson County, Texas and Adams County, Pennsylvania each have a unique number "001" as the first County alphabetically in their respective states.

Q.2d General adult population confinement

<See question Q.2 for complete question text.>

4. Yes

6. Inap., Question not marked

Q.2e Other (e.g., psychiatric care, etc.)

<See question Q.2 for complete question text.>

5. Yes

6. Inap., Question not marked

Q.3 What is the rated capacity of this facility? If you have more than one rating, please report the rating under which the facility is currently operating.

Actual number coded 7 to 4,189

Q.4 Does your facility have a study release program? Mark "Yes" regardless of whether inmates are paid for attending classes.

Q.5 Does your facility have a work release program?

1. Yes

2. No

Q.6 What was the inmate count in this facility on November 14, 1979? Please count all male and female inmates who had a bed reserved for them in this facility, including sentenced and unsentenced inmates, probation and parole violators, and civil and diagnostic commitments. This count should include all inmates who are temporarily absent from this facility for court appearances, brief furloughs, etc. This count should exclude all inmates who are on escape or away without leave (AWOL). Count as sentenced, any inmate who has been sentenced for one or more crimes but may be pending sentence for another crime. Also, count technical violators of probation or parole as sentenced.

Q.11b(3)b) Not rated--Type 10

9. Not rated, actual number of beds coded in Q.11b(2)
0. Not coded or question not marked

DECK IDENTIFICATION NUMBER IS '08'

STUDY ID NUMBER

7852. The ICPSR has attached this number as a study identification number.

VERSION NUMBER

1. This is the first version of this study.

PART NUMBER

1. The entire study is contained in one file.

SEQUENCE NUMBER

The ICPSR has attached a number to each case. This number uniquely identifies each case in this survey.
### General Information

- **Floor Space**: Type 10
- **Number of Units**: Type 10
- **Confined Unit Use**: Type 10

#### Specific Data

- **Floor Space**: Type 10
  - Actual square feet coded: 0 to 9,240
  - 99999. NA

- **Number of Units**: Type 10
  - Actual number coded: 0 to 296
  - 99999. NA

- **# Hours Confined**: Type 10
  - Actual hours coded: 0 to 24
  - 99. NA

- **Security Designation**: Type 10
  - 1. Maximum
  - 2. Close
  - 3. Medium
  - 4. Minimum
  - 5. Other 1
  - 6. Other 2
  - 7. Other 3
  - 8. Other 4
  - 9. NA
  - 0. Inap. No unit coded

- **Number of Inmates Today**: Type 10
  - Actual number coded: 0 to 277
  - 99999. NA
Q.11b.(2)10 Male and/or female use of unit--Type 10

1. Male unit
2. Female unit
3. Both sexes in facility
4. NA
5. Inap., No unit coded

Q.11b(2)all Rated capacity of ONE confinement unit--Type 11

Actual number coded 0 to 270

9999. NA

Q.11b(2)b11 Not Rated--Type 11

9. Not Rated, Actual number of beds coded in Q.11b(2)
10. Inap., No unit coded or question not marked
### Q.11b(6)11 Confinement unit use -- Type 11

1. General housing unit
2. Protective custody
3. Administrative segregation unit
4. Disciplinary action unit
5. Unit for sick or injured inmates
6. Other 1
7. Other 2
8. Other 3
9. NA
0. Inap., No unit coded

### Q.11b(7)11 Security designation of confinement unit -- Type 11

1. Maximum
2. Close
3. Medium
4. Minimum
5. Other 1
6. Other 2
7. Other 3
8. Other 4
9. NA
0. Inap., No unit coded

### Q.11b(8)11 Number of inmates TODAY -- Type 11

### Q.11b(9)11 Male and/or female use of unit -- Type 11

1. Male unit
2. Female unit
3. Both sexes in facility
9. NA
0. Inap., No unit coded

### Q.11b(10)12 Rated capacity of ONE confinement unit -- Type 11

Actual number coded 0 to 118

### Q.11b(12)12 Not Rated -- Type 12

9. Not Rated, Actual number of beds coded in Q.11b(2)12
### Q.11b(3) 12 Floor space of ONE confinement unit—Type 12

- **Actual square feet coded 0 to 10,371**
  - 99999. NA

### Q.11b(4) 12 Number of confinement units—Type 12

- **Actual number coded 0 to 278**
  - 99999. NA

### Q.11b(5) 12 Average number of hours per day confined to unit—Type 12

- **Actual hours coded 0 to 24**
  - 99. NA

### Q.11b(6) 12 Confinement unit use-Type 12

Q.15(1) Annually for all inmates

Q.15(2) Annually for inmates 50 years or older

Q.16 What percent of the inmates admitted to your facility are given a comprehensive health evaluation (i.e., medical history, physical examination, and prediagnostic tests) within 10 days of admission (excluding weekends and holidays)? Include evaluation given either at this facility or elsewhere, e.g., at a reception/diagnostic center, or other facility where inmate was first admitted.

Q.17 How often are inmates in this facility given a post-admission comprehensive health evaluation? Mark (X) all that apply.

1. None
2. 1-25%
3. 26-50%
4. 51-75%
5. 76-99%
6. 100%
